HAER No. IL-91

**Location:** Illinois and Michigan Canal National Heritage Corridor  
South of Romeoville Road along the Athison, Topeka and Santa Fe Railroad  
Lockport, Will County, Illinois

**Significance:** A rare corncob incinerator, this one is located near and was probably associated with the grain elevators of the Lockport DuPage Farmer's Elevator Company (HAER No. IL-90). This is the only corncob incinerator found in the Heritage Corridor.

**Project Information:** The Illinois and Michigan Canal was designated a National Heritage Corridor in 1984. The following year HABS/HAER embarked on an extensive inventory and documentation project of the 100 mile-long corridor. Field work for this project was concluded in 1988. Final editing of the documentation was completed in 1992.
